NOTES

Please Read Carefully!

Progress Report:
You should talk about your research path, challenges, and possible outcomes. If you have any question feel free to ask us after your presentation.

Proposal Report:
You need to talk about your proposal. Try to manage your mind and focus on the literature and explain the timeline of your research.

Final Report:
It will be your final presentation before your defense. Try to focus on the quality of your slides, be careful about the time limitation, and present your research (thesis) as great as you can.

Important:
Please try to present your work at the specific time.

- Please use the updated version of SMGRC template.
- Please watch this video if you need more details about a good presentation.

NOTES

Please Read Carefully!

Alternative Presentations:

If a presenter is absent (for any reason), the supervisors team (first supervisor-second supervisor-advisor) are responsible to provide on her/his behalf. If the supervisors team could not present instead of their student, SMGRC management should support the meeting by a proper presentation.

Organizer:

Each session has its own organizer. A meeting management guide will be e-mailed to each organizer a week before the meeting.
